

Local Agent information – available December

In the first week of December, the Legal Services Society will be posting information on its website for those interested in the tendering process for becoming a local agent in Kamloops, Kelowna, Prince George, Surrey or Victoria.

Local agents perform a very important service in communities including assessing the eligibility of legal aid applicants, providing public legal information, scheduling duty counsel appointments in local courthouses, providing pro bono legal services, and distributing legal aid referrals to local lawyers according to LSS policies.

A link to the local agent information package will appear on the LSS homepage (lss.bc.ca) when the material is available.
